

R105

HIGH ENERGY DURABLE SCREENER

The McCloskey R105 High Energy Durable Screener provides the best solution for operators who don't require the higher capacity of the larger models.

Built around McCloskey International's highly productive High Energy Screenbox, the R105 has all the class leading features of the R-Range, such as high quality components, durability and reliability. Offering the highest stockpile and largest screening area in its class while meeting the European transport regulation width, the R105 represents the most cost effective productivity and quality on the market in a versatile and mobile package.

Screenbox
High Energy 4.5' x 12' (3660mm x 1370mm) Screenbox with 10mm throw at 950RPM provides the most aggressive screening action in its class.

Hopper
7.8 yd³ (6 m³) hopper equipped with a 48" (1200mm) heavy duty 4 ply belt designed for heavy duty applications.

Large Open Engine Bay
Allows easy access with 50% more room for service for minimal downtime.

Oversize Conveyor
Discharging oversize material at 11'-4" (3.45m), the 48" (1200mm) wide 3 ply belt allows for efficient stockpiling.

Transport Size
Compact transportation size is perfect for contractors looking for highly portable mobile screening.

R105

Engine: 100 hp (74 kw) Tier III Diesel
